Hi John,

I made your edits to the note. Here is a suggested email for you to send to Dave.

For your biweekly tomorrow, wanted to share the latest on OR: OR has enacted legislation to pursue partial assumption of the CWA 404(g) program - they are seeking to issue permits for a subset of 404 activities and only into waters in urban geographic areas. The legislation requires the state agencies to submit a legislative proposal for the 2020 legislative session (February – March) which is to include the changes necessary for EPA approval of their program. I want to note that their legislative session will close prior to the scheduled publication of the CWA 404(g) regulatory revisions that will propose partial assumption.
